Password Hard to Remember?

Some club members have expressed difficulty remembering their passwords. While we can't remember it for you, there are a couple of tips that may help alleviate some of your pain.

- When logging in, click the "Remember me" box. You won't have to log in the next time you visit the site from that browser!

- Most modern browsers have a password manager that will remember your password for you. It will then fill your password in the next time you visit the login page.

- We've made the password requirements as simple as we technically can. Make it easy to remember to begin with.

- If all else fails, save your password in a note on your phone.
